Wendelin Dunlap
Western Washington University

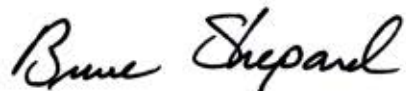

Dear Wendelin:

Congratulations on receiving the Washington Campus Compact Students Serving Washington Outstanding Service Award! I was delighted to see Western Washington University students among the award winners, and while I am not surprised when our students shine in applying their higher education to higher purposes, I am always proud. Congratulations on this well-deserved recognition.

As I learned more about your work as co-Director of Western's LEAD Program I was amazed by all that you have been able to accomplish and the huge quality improvements you have devised and implemented for the program and its connections to the community. Your collaborative leadership and project management skills in complex on- and off-campus environments are especially impressive, particularly in the midst of your own graduate work! Western, our students, and the many community partners you have worked with on these projects are fortunate to benefit from your leadership, vision, and commitment.

Congratulations again on being selected to receive the Outstanding Service Award, and for exemplifying what *Active Minds Changing Lives* is all about.

Sincerely,

Bruce Shepard
President
